Matthew Topping.

Programmer & Marketer

0458 687 171   toppingmatt@hotmail.co.uk   matttopping.com

Profile

I am a 2019 graduate that is excited to apply my newly honed I.T. and Business skills in my professional career. My enjoyment when working with people sees me thrive in a team environment, delivering clear high-quality work.

I am experienced in both front-end and back-end languages including HTML, CSS, PHP, C#, Java, Python, C & MySQL. This knowledge obtained through work & university, combined with my strong ability & willingness to learn, makes me a versatile & adaptable programmer and business employee.

Skills & Attributes

Professional

- Solid understanding of a wide range of programming concepts & their applications, especially in object orientated programming & dynamic web languages.
- Strong understanding of logical problems behind programming task. This allows me to be both confident & effective in debugging.
- Consistent user of coding conventions.
- Dedicated to the complete the entirety of a task up to the required standards.
- Effective communicator in team environments & when reaching out for help.
- Wide understanding of business.
- Grasps & precisely executes client goals by drawing from marketing consumer behaviour theory & agile methodology.

Personal

- Videography & photography. Proficient in Adobe's Premier Pro, Lightroom & Photoshop.

Education

- *Bachelor* of Information Technology (Computer Science) with Distinction & *Bachelor* of Business (Marketing) completed Semester 2 2019 at QUT

Experience

Services Australia (2019)

- A year long work experience as a part of the capstone units at QUT. Client brief included prototyping work on a UX/UI problem for the Newstart Allowance online claim process in an agile development environment.
- This project cemented professional communication skills, the application of I.T. theory, working in a team and working to a client's brief.

Ray White Narangba (2014 - Current)

- Part-time employment running the office from open to close on Saturdays completing reception and administration tasks often with no other colleagues in the office.
- Overall this position has been instrumental in helping grow my skills in customer relations as well as solidifying responsibility and motivation at work. Furthermore it has developed my intuition to solve problems independently.

Price My House Brisbane (2019 - Current)

- Freelance project for Priority Residential creating an online sales appraisal service.
- By hosting a dynamic web application and the releasing a basic Google Adword campaign, the PMHB project has applied my university skills in a real-world scenario, expanding the understand of their use in the workplace.
